Jim,

We are pulling together an air monitoring team and want to touch base with you. We can get into the specifics with our technical folks later but based on what I'm hearing about the shutdown process I would think that air monitoring would be useful to evaluate operations and alleviate the concerns of the public.

I asked our folks to be ready to go by Tuesday. What are your thoughts on this?

I'm also wondering if anything has changed with respect to the meeting. Since the word is out, are we still meeting on Monday night?

Thanks,
Joe
